# Examples of how and where people sit

1. THE DRAW

2. THE MULTI-DEVICE

3. THE TEXT

4. THE COCOON

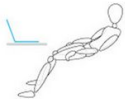

5. THE SWIPE

6. THE SMART LEAN

7. THE TRANCE

8. THE TAKE IT IN

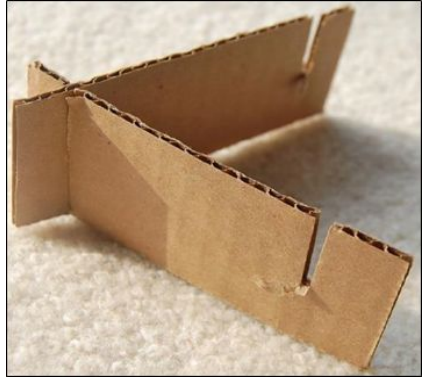

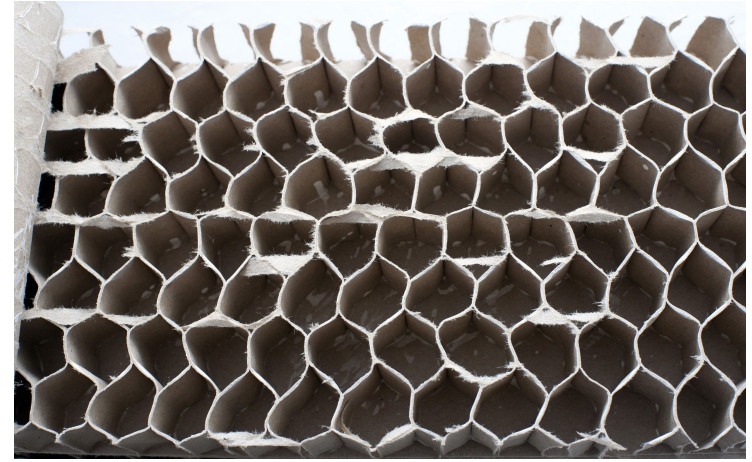

9. THE STRUNCH

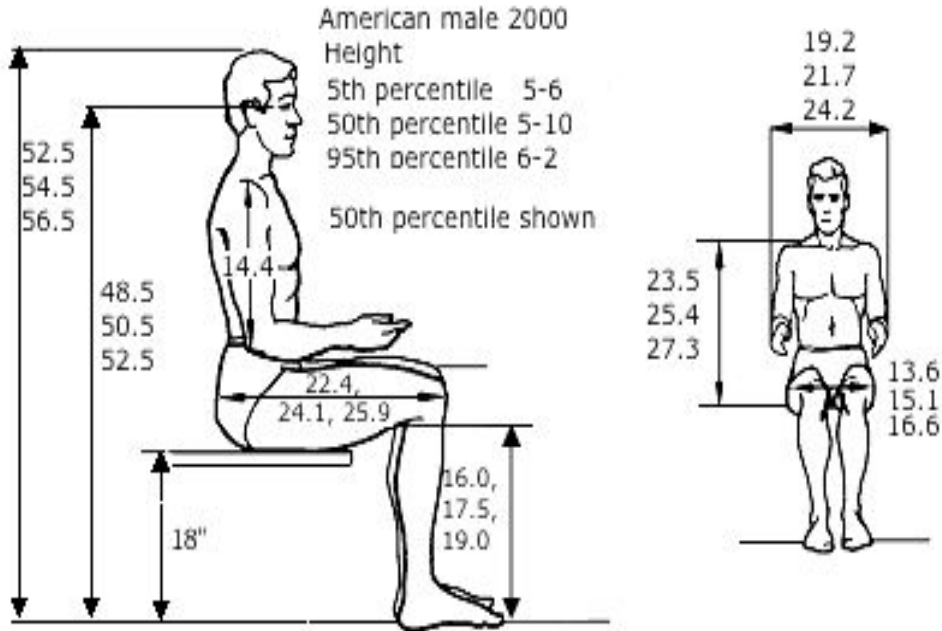

# Cardboard Structuring Methods

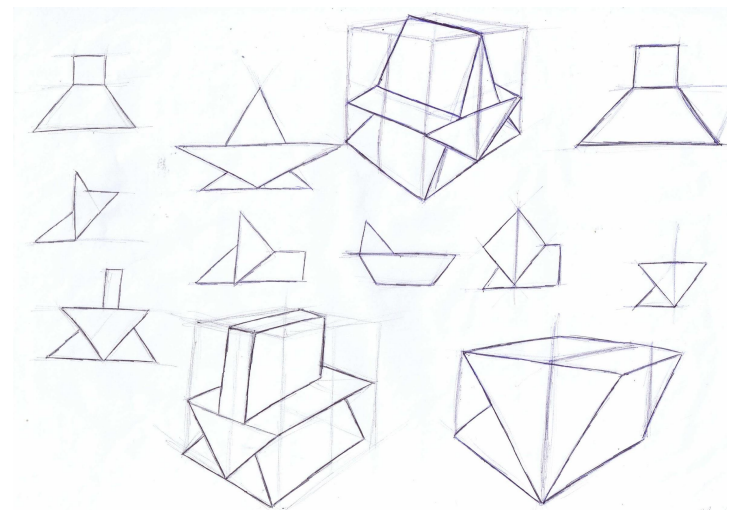

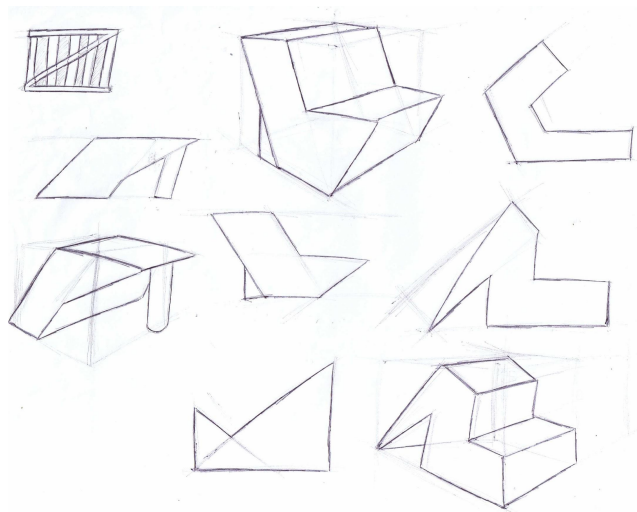

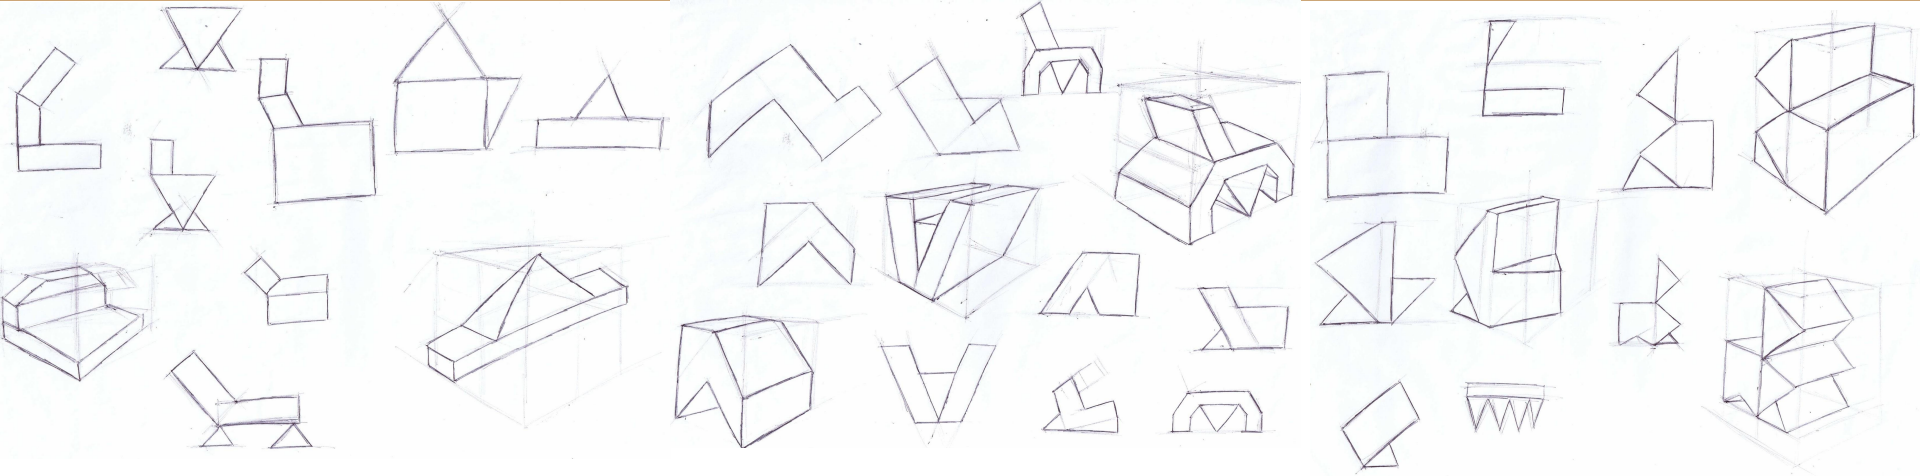

# Dimensions and angles of the human body to sit on a seat

## Anthropometric Dimensions for American Male

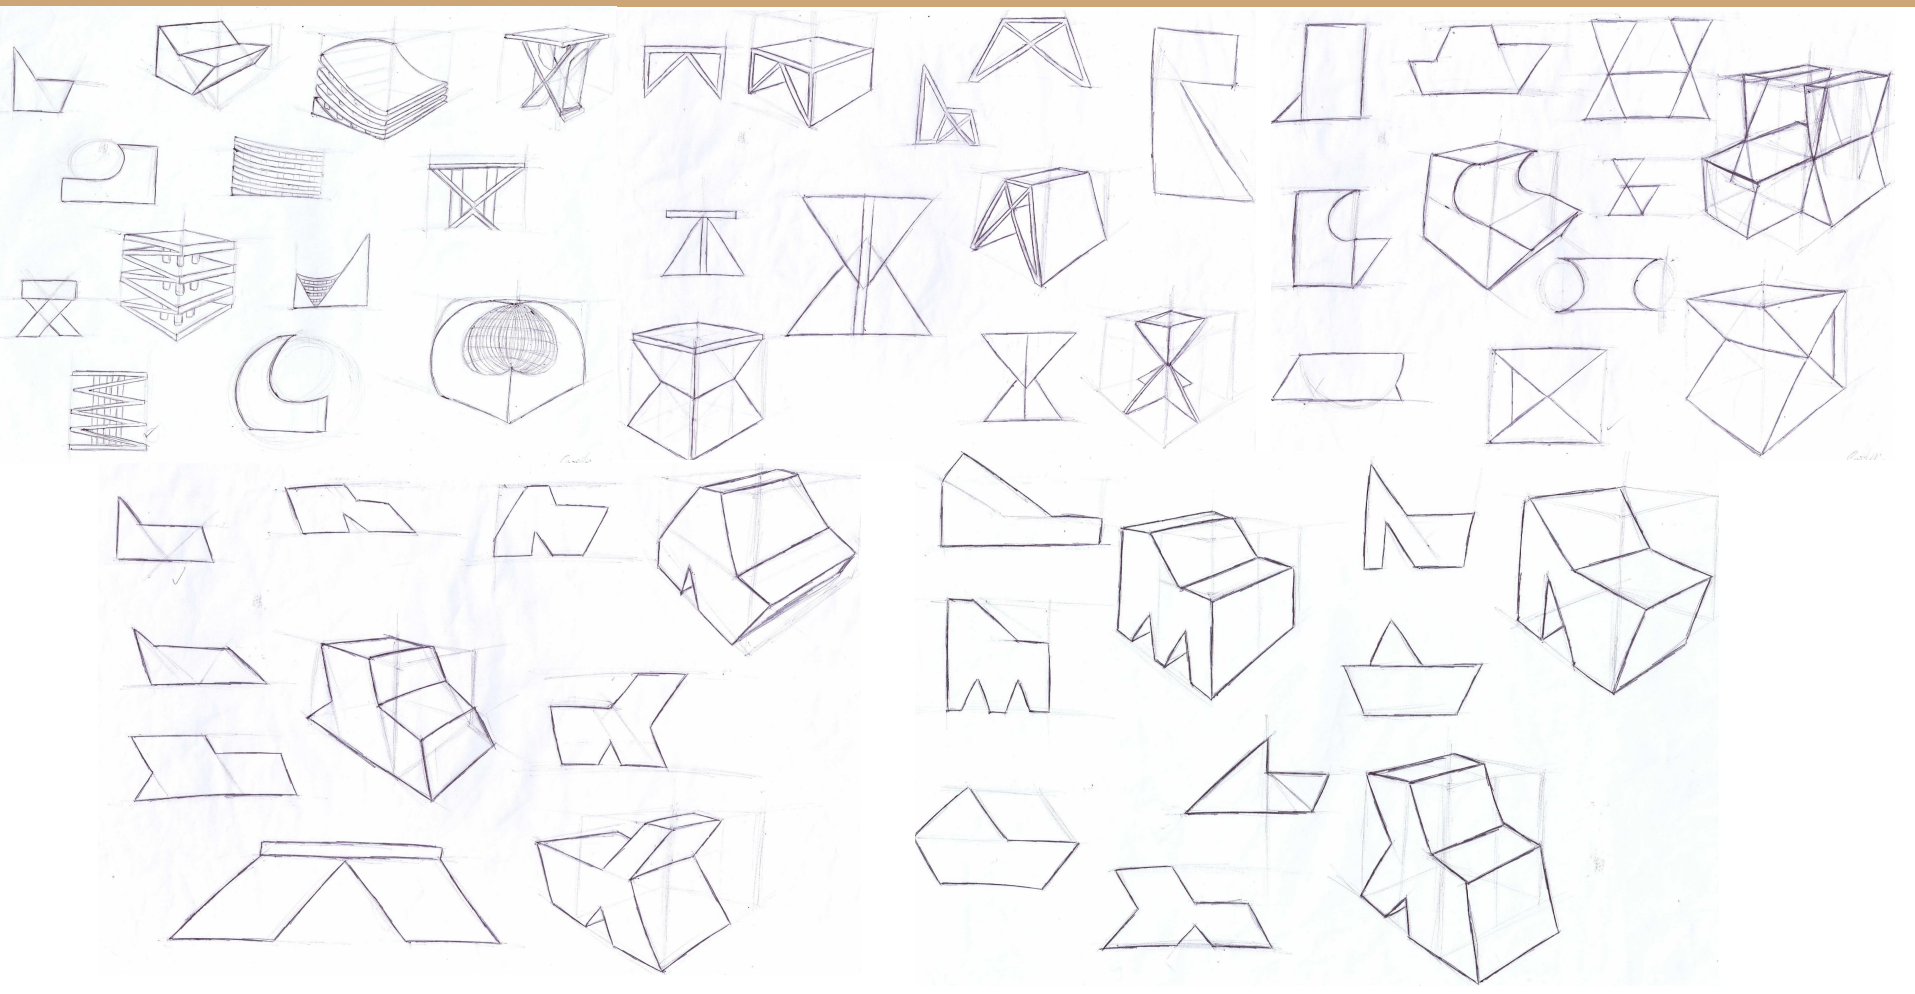

The proportions of a human male/female need to be taken into consideration with the design of the seat. To make the seat a comfortable height for the average person to sit on.
